

'St Peter's Present's...'

We are an extremely creative school and take every opportunity to use our musical, artistic and dramatic talent both inside and outside of the classroom.

We also sing, act, dance and rap, but without doubt, the highlight of our year is the famous St. Peter's Christmas Concert.

Never Judge a Book by its cover!

Behind the walls of St. Peter's lies a colourful world of literacy waiting to be explored. Our bright and vibrant library, which contains an automated library system, boasts 20 computers in addition to a set of 18 pupil laptops. Every year we participate in World Book Day, Roald Dahl Month, a Film & Book project (FAB), paired reading, along with creative writing and handwriting competitions. We have a whole school approach to spelling, reading, oral language, writing and grammar.

St. Peter's All Stars

We are currently completing our second active flag, after being the first school in Leinster to be awarded one.

We have a healthy emphasis on sport. Each class participates in daily football and active yard games at lunchtime. The students also take part in weekly running, GAA coaching, tennis and basketball. Swimming takes place each year in February.

'And the Award Goes to...'

St. Peter's is well known for its success in the area of Science and Engineering. The school has recently been presented with its seventh Discover Primary Science award, in recognition of our innovative work in science. January 2014 will mark the sixth year that we will have submitted a project to the BT Young Scientist, having previously won one of the top prizes. We were also a recipient of the 'Engineering Class of Ireland' award.

Supporting Roles

We are delighted to be able to offer a special Educational Needs class where lessons are taught individually or in small groups. Our learning support facility focuses on students in a small group setting, as well as providing in class support. Our Resource Teacher assists students who have specific needs, while our Project Worker helps to build confidence in those who need it.

Special Effects

We have many after-school clubs, Singing, Multi-Sports, Science, Friday Fit Club, 'Scratch' programming and Film. Our Student Council regularly make suggestions for new clubs, such as the upcoming Dance and Art clubs. Our Breakfast and Homework Clubs ensure full tummies and clever heads!

Movie Star Maths

Our innovative approach to teaching Maths has resulted in the school's annual SIGMA-T scores increasing every year for the last six years. A strong emphasis is put on Numeracy, with daily "Morning Maths" and tables for all. Our class laptops encourage a modern, 21st Century approach to learning maths.

Back to the Future

St. Peter's was the first school in Bray to install an interactive whiteboard in every classroom. We endeavour to use the most up to date software, such as 'Scratch' and online educational tools in our day-to-day teaching. We are extremely proud of our blog, and are in the process of participating in the 'Digital Schools Award'.
